

Play Zone HD MINI HD TELESTRATOR Model EzPz1

**HIGH PERFORMANCE
COST EFFECTIVE SOLUTION**

Play Zone HD provides a truly compact and portable High Definition Telestrator that fits inside your shirt pocket. Whilst it may be small in size, it features functionality found in high end Telestrators, without the hassle of menus or buttons, just plug in the power, connect the touch screen and you are ready for action. The stylish Play Zone HD design reflects the quality of engineering & is housed in a beautiful aircraft grade aluminium case that ensures protection for a portable device whilst maintaining a lightweight solution. Play Zone HD is highly expandable with optional accessories including HD-SDI & HDMI Modules, IR programmable remote & VESA mounts. Simply plug in a USB thumb drive loaded with your playlist of video or pictures for instant replay or use the built in library of sports sketch and get the team ready for game time.

PLAYZONE HD OVERVIEW

Play Zone HD is quick to setup and very easy to use, connect the USB & HDMI to the touch screen for instant interactive annotation & telestration over video clips, pictures or live video inputs from the optional Play Zone HDMI & HD-SDI modules. Popular Telestrator tools which include freehand draw, stretchy arrows, circles and spotlights are located in the corners of the touch screen display for fast and easy use. Play Zone HD can be used with a standard USB mouse for use with PC monitors and TV displays.

Play Zone HD Remote allows one click navigation of playlist content and source switching; along with Play/Pause and video seek functions. Using the remote you can switch tool colours and sizes, Play Zone HD remote is programmable, and you can use a selection of standard remotes and customise the keys to provide preferred functions. You can attach a USB keyboard for secondary control as well as the remote.

- Compact, low power, light & easy to use Telestrator
- Cost effective solution
- Full HD 1080p
- Draw over video clips, pictures & live video
