

XT-LC50M

Fibre Optic Cable

X-Tools XT-4LC fiber optic cables are constructed of 4 individual color coded multimode 50/25um simplex cables of diameter 2.0mm each, contained in a round overall orange jacket. They are intended primarily as companion to various X-Tools detachable transmitter/receiver sets.

Quality Construction - Sub-cables are color coded: red, green, blue and orange and are terminated with the popular LC connectors for easy installation and are shipped with dust caps at the ends.

Numerous Applications - Use these cables to connect our optical transmitter and receivers for DVI and HDMI, such as: 610 T/R, 621 T/R and 631 T/R, and the model 648 FireWire repeater.

Varied Selection of Lengths - Available in lengths ranging from 10 - 300 meters (33 to 990ft), and by special order up to 500 meters (1,650ft).

SPECIFICATIONS

Construction

FIBER CORD: PVC (OFNR) 2.0 x 4.

FIBER: Multimode 50/125µm Optical fiber.

Diameters

OUTER DIAMETER: 7.0 mm , color Orange.

Electrical

INSERTION LOSS: 0.3dB.

OPERATING WAVELENGTH: 850nm.

Overall

OPERATING TEMP. (°C): -40 °C ~ + 80 °C .

STORAGE TEMP. (°C): -40 °C
