

SIMPLICITY AND STYLE

Pioneers in the development of screen frames and the development and coating of screen surfaces, combine unrivalled experience with the latest technology to provide innovative solutions for audio visual, cinema and leisure markets worldwide.

Smart-View Screen System

Assembled in minutes, no other screen offers the stylish simplicity of Smart-View.

Providing a totally professional appearance, the lightweight frame hangs from a simple rail - perfectly flush to the wall.

Smart-View is suitable for both front and rear projection systems.

Application

Smart-View screens are recommended for:

- Board Rooms, Corporate Information Suites, Reception areas and other prestige business locations.
- Home Cinema.
- Smaller Viewing Theatres, Visitor Centres, Museums and other select presentation venues.

Construction

Smart-View frames are constructed of lightweight extruded aluminium sections.

Non-reflective black powder coated frames are immediately available. A black cloth finish is available to special order.

Factory mitred corners for a perfect join.

Assembly

Frames are supplied flat packed for self-assembly complete with all fixings and surface choice as ordered.

Choice of Screen Surface

The X-View screen surface is fastened to the reverse of the frame using 3M™ Dual Lock™ to provide a perfectly flat viewing surface.
